“ Our goal is to make a very professional entrance in the Dutch offshore wind market and prove our reputation as a market leader.”

Claus Bøjle Møller

*Senior programme director
Borssele 1&2*

“ The Netherlands has firm green energy ambitions. Ørsted is very happy to contribute to the Dutch energy transition.”

Jasper Vis

Country manager Ørsted NL

Suppliers

Building and extending relationships with capable, competitive and innovative suppliers is essential to delivering Borssele 1&2 successfully. The procurement processes are furthermore described on orsted.com. For more information about the Borssele 1&2 project: see the Borssele section (in English and in Dutch) on orsted.nl.

Let's create
a world that
runs entirely
on green
energy
